One of the best burger joints in the city is now open on Carousel Row. Located at 1655 N. Irving, the spot is called (Un)Continental Cafe & Bar and is an homage to the popular T.G.I. Friday's brand. The building itself has seen a resurgence over the past few years, and now, with the addition of the new restaurant, the former apartment complex has become a social hub for the area. While many of the apartments have been demolished, a handful of new residences have been built nearby. Continental Cafe & Bar features a menu of burgers, pastas, salads, and other items along with a collection of draft beers and specialty cocktails. There's a full bar as well, with an array of spirits and a selection of wines. They even have a reservation system if you want to reserve a table for large parties. Diners can eat in or take out. They currently have seating for 25, with room for another 30 on the patio. They also offer delivery services and curbside pick up through Caviar. I've never tried a Continental Cafe Burger before, so I decided to go with the International Burger. It's topped with pepper jack cheese, onion straws, lettuce, tomato, and mayo. It's listed as a 12-inch burger for \$13.50, and if you want to add a side, it's an additional \$5. Overall, the burger was pretty good. It wasn't a burger-flipping extraordinaire, but it was pretty tasty. As you would expect, the top is nice and melty, and the lettuce was fresh. The onions were also top-notch. I actually liked the tomato more than the lettuce, so that

Q: Adding Links to Map Markers This is a follow up question to How to draw a link to a marker in google maps I'm wondering how I can implement a link to a marker. I have the location of my marker and I would like to get a link to a page with a map image when I hover over the marker. I'm just wondering how to get the URL from the myLatLng variable I've set. `var myLatLng = new google.maps.LatLng(37.967, -122.137); var myOptions = { zoom: 7, center: myLatLng, mapTypeId: google.maps.MapTypeId.ROADMAP }; var map = new google.maps.Map(document.getElementById("map_canvas"), myOptions); var marker = new google.maps.Marker({ position: myLatLng, map: map, title: "122 Fake Street" });` A: This may help Geocoding demo `html, body { height: 100%; margin`
