Share this game Underwater World 3D Publisher PC Games Product Reviews, downloads and hints Underwater World 3D Publisher PC Games Product Reviews, downloads and hints At the beginning, go to under-water world and complete the tutorial You should have 3 levels in tutorial. The purpose of this is to know what is required for you to play the game. When you have completed all the 3 levels, press the play button and you should start playing the game. You will need to collect some types of fishes from your diver and they will have to be shared with the dolphin. You will get little fishes and you will get some other types of fishes too. These will be beneficial to your game. So, you must have to collect all of them. You have to collect them from the 3 levels and from the places too. You have to keep the time too. You will get some fishes if you go to the bottom. The place which you have to avoid is the deep sea. There is a place in it called as the cramp-fish hide-out. There are the shark and the dolphin. They will eat you. If you do not go there, you will not lose anything. There are the ancient ruins too. You have to collect all of them. You must collect the fish first. Then, you have to search for the ancient ruins. There are some things there which you must collect. You have to collect some more fishes too. The place where you will have to collect the fish is the ancient ruins.
