Using Photoshop's features Photoshop's powerful tools are easy to use, especially compared to other image-editing programs. The most important aspect of the program to grasp is the concept of layers. You layer different parts of an image so that they can be edited separately without losing the information from the original image. Thus, you can make changes to the background while leaving the man intact. In addition to layers, Photoshop gives you a wide selection of tools (ranging from cloning to liquify to erasers) that can help you create beautiful photo-artistic designs. Image editing tools such as levels, exposure, color balance, and black-and-white conversion tools enable you to correct and adjust images in ways not available to the naked eye. You also use tools such as the Warp, Filter Gallery, Quick Selection, and Selection tools to easily move and resize, layer, and paint on an image. SALMON, Idaho (AP) — A Marine who served in Iraq will get credit for two years of time spent in the war zone when he is sentenced Friday for ordering the killing of a teenage Iraqi boy. Prosecutors argue that the 29-year-old native of the state's Newport Peninsula should get credit for the time served. Defense attorney William Hanrahan says his client shouldn't be penalized for what he was ordered to do. A military jury convicted James Hatch of conspiracy to commit premeditated murder last month. Hatch is accused of ordering fellow Marine Christopher Raisor to drive into a group of Iraqi men gathered in a western Iraqi town in May 2006. Raisor then stabbed the 18-year-old from Kirkuk, Iraq, 19 times with a screwdriver. Prosecutors say the attack was ordered because Hatch believed that people of Kirkuk were cooperating with the enemy. Hatch faces a maximum of life in prison when he is sentenced. " "So I think I am not going to lie about that, because it is not good for me to lie," he added to a shrug. He performed "Escape" - which he had recorded in 2002 with Timbaland and Justin Timberlake - as his first song on the show. "By the way I am not a pop star, I'm an artist," Iglesias said. However, the singer appeared in black, white and silver, dressed in a sports jacket and tie, and his singing voice is strongly reminiscent of Michael Jackson's. "You'll see, I'm gonna rock you," he told the crowd. Iglesias has been a favourite at the Grammys since winning five awards in 2008, including a record-equalling five trophies for Best Male Pop Vocal Performance. But early on Sunday morning, he failed to win the prize for record of the year -
